## EDUCATION

---

**VTU**

**Bangalore, India**

*Bachelors of Engineering, Electronics & Communication*

**Jun 2015**

## WORK EXPERIENCE

---

**Springboard**

**Bangalore, India**

*Principial Software Engineer*

**Sep 2016 - Dec 2022**

- Progressed from sole frontend developer to principal software engineer, leading teams, managing people and pods and delivering successful projects.
- Lead the frontend team through a large-scale refactoring project.
- Experience in building Marketing Platform.
- Developed a dashboard to streamline the process of launching new courses, resulting in a reduction of course launch duration from 6 weeks to 1 week

**Hewlett Packard Enterprise**

**Bangalore, India**

*Software Engineer*

**Nov 2015 - Aug 2016**

- Contributed to the development of an internal workflow management tool using technologies such as SOAP, XML, and Java.
- Developed a proof-of-concept web-based application for a networking company that allows end users to request mobile number portability, using Angular.
- Completed 2 months computer science onboarding.

## PROJECT EXPERIENCE

---

**Springboard**

**Bangalore, India**

*Self Serve Launcher*

**Jan 2018 - Feb 2018**

- Led the development and implementation of a dynamic dashboard, reducing course launch duration from 6 weeks to 1 week by streamlining the process of launching new courses
- Gathered requirements and worked closely with cross-functional teams throughout the project to ensure successful delivery of the end product
- Developed a dynamic dashboard that provided real-time insights on all data inputs required, missing information, team responsibilities, and editing capabilities

## **Springboard**

**Bangalore, India**

### ***Marketing Platform***

**Jul 2019 - Feb 2020**

- Led the development and implementation of a marketing platform that streamlines the process of launching new course landing pages.
- Collaborated closely with the marketing team to gather requirements, identify areas for improvement, and ensure that the final product met their needs.
- Built a platform with user-friendly drag-and-drop functionality that enables easy customization of landing pages, optimized for different device sizes.
- Incorporated live preview editing, advanced analytics capabilities, one touch deployment and user workflow management to control access and permissions.

## **LEADERSHIP EXPERIENCE**

---

## **Springboard**

**Bangalore, India**

### ***Technical Contributions***

- Successfully led the frontend team through a 6-month refactoring project, involving planning and implementing strategies for updating the 5 years old codebase.
- Experience in leading and managing teams, delivering successful projects, and using modern technologies to enhance development speed and improve developer experience.
- Spearheaded the development and implementation of a dynamic course launch dashboard which streamlined the process of launching new courses and reduced the launch duration from 6 weeks to 1 week.
- Led the development and implementation of an marketing platform that streamlines the process of launching new course landing pages and improve the user experience. The platform included features such as drag-and-drop functionality, customization options, analytics, user workflow management, one-click deployment, static pages, dynamic preview while live editing and a modern tech stack.
- Collaborated closely with cross-functional teams throughout the projects, gathering requirements, and ensuring successful delivery of the end product.

### ***Non-technical Contributions***

- Successfully addressed and improved employee satisfaction within a 8-year-old startup by leading a team in identifying the root cause of declining NPS (Net Promoter Score) through one-on-one meetings, gathering feedback, and presenting a solution to the company board.
- Conducted thorough research by conducting one-on-one meetings with 20 tenured employees, gathering their perspectives, and compiling the data to identify areas for improvement.

- Developed and presented a comprehensive solution to the company board, which included a clear problem statement, the research process and proposed solutions to enhance employee NPS.
